

MUST EITHER DROP BY GRAVITY FROM VERTICAL TO STORED or WE MEASURE FROM OPEN POSITION FOR 400MM UNOBSTRUCTED CLEARANCE

REQUIRE:

code requires 15 3/4" (400mm) unobstructed passage

tier depth - 400mm = available seat envelope

Can measure unobstructed passage with tablet stored only if it "drops from vertical position to stored position by force of gravity"

want largest possible tablet - prefer ballpark 150 sq. inches (0.1 m2).
